Many of these team members volunteer from the Big Island community each year. The event attracts individuals who not only thrive on personal challenge and enjoy the thrill of victory, but who come to understand, as did the ancient Hawaiians, the importance of *aloha* (love), *ohana* (family), and *kokua* (help). Individual resources, mental, physical, and spiritual, are shared in an atmosphere where everyone who completes the course is a winner, and the pursuit of human excellence is the fundamental rule of the road.
